Professional Summary

Full Stack Software Engineer with 5+ years of professional experience building scalable SaaS, healthcare, eCommerce, CRM, LMS, and payment-enabled platforms. Currently Lead Software Engineer at Line Reflection LTD and Senior Software Engineer (Remote) at Nomadiccare (Australia). Specialise in React.js, Next.js, Node.js, Laravel, Spring Boot, Swift, and Kotlin across web and mobile. Apply AI-augmented development workflows in production — led a Kubernetes cloud migration at CodersTrust JobReady achieving 93.5% cost reduction using Claude, Codex, and K8sGPT; building cross-platform healthcare apps at Nomadiccare with Claude Code and Maestro E2E automation.

Education

American International University-Bangladesh (AIUB) [🔗](#)

July 2017 – Jan 2021

Bachelor of Science in Computer Science & Engineering

- GPA: 3.99/4.0 ([View Certificate](#) [🔗](#))

Higher Secondary Certificate (HSC) [🔗](#)

2014 – 2016

- GPA: 5.00/5.00 ([View Certificate](#) [🔗](#))

Experience

Lead Software Engineer

Middle Badda, Dhaka

Line Reflection LTD [🔗](#)

June 2024 – Present

- Lead solution architecture, full-stack development, code review, technical planning, and delivery coordination across SaaS, healthcare, eCommerce, CRM, LMS, finance, and payment platforms
- Distribute and guide work of junior developers and UI/UX designers; conduct code reviews and technical planning sessions
- Full-stack development: Node.js, Laravel, Spring Boot, ASP.NET Core (C#), React.js, Next.js, Angular, NestJS; mobile: Kotlin (Android), Swift (iOS); databases: MySQL, MSSQL, PostgreSQL
- **AI-augmented DevOps (CodersTrust JobReady):** Led migration from AWS EKS to Vultr Kubernetes (VKE) achieving 93.5% cloud cost reduction (~\$37,260/year saved); applied Claude, Codex, and K8sGPT for infrastructure analysis, load testing (250+ VU with k6), and operational decisions across Terraform IaC, ArgoCD GitOps, Cloudflare WAF, Prometheus, and Grafana
- Deployment via Docker, AWS, Google Cloud Run, Kubernetes, and CI/CD pipelines

Senior Software Engineer – Remote

Australia (Remote) 2024 –

Nomadiccare [🔗](#)

Present

- Building a connected healthcare SaaS platform serving clinicians, care teams, and patients across Australia
- **Web Portal (React.js):** care plan management, patient health task tracking, provider directory, HealthEngine appointment booking, telehealth video & chat, Stripe subscription billing, Google Drive integration, SMS/OTP, fall prevention, admin management
- **iOS (Swift):** health monitoring tasks (blood pressure, blood glucose, BMI, sleep, steps, weight, calories, pain level), gamified progress & badges, telehealth chat via Firebase RTDB, care buddy, referrals, onboarding
- **Android (Kotlin):** full feature mirror of iOS app; production & staging environments, APK/AAB release pipeline
- **Backend:** Firebase Cloud Functions (Node.js, australia-southeast1) — 14 API domains covering auth, health task completion, Stripe billing, SMS/OTP, video/telehealth, webhooks, and Firestore scheduled triggers
- **AI Tools:** Claude Code (AI-augmented development), Playwright (web E2E testing), Maestro (automated

mobile E2E testing)

Software Engineer

[Line Reflection LTD](#) [🔗](#)

Middle Badda, Dhaka

June 2022 – June 2024

- Full-stack development across multiple client products using Node.js, Laravel, Spring Boot, ASP.NET Core (C#), React.js, Next.js, Angular; database design (MySQL, MSSQL, PostgreSQL)
- Solution architecture design, UML database modelling, customer requirement analysis and feedback resolution
- Deployment of solutions via Docker, AWS, and Google Cloud Run

Associate Software Engineer

[Line Reflection LTD](#) [🔗](#)

Middle Badda, Dhaka

June 2021 – June 2022

- Full-stack development using Node.js, Laravel, ASP.NET Core, React.js, Next.js
- Customer requirement analysis and feedback resolution; deployment of developed solutions

Software Engineer Intern

[Line Reflection LTD](#) [🔗](#)

Mohakhali DOHS, Dhaka

Jan 2021 – May 2021

- Integrated Figma designs into frontend using React.js and Next.js

Teaching Assistant

[American International University-Bangladesh \(AIUB\)](#) [🔗](#)

Kuratoli, Dhaka Sep 2020

– Dec 2020

- Assisted the professor in developing course materials, formulating examination questions, and evaluating student performance for Web Technologies and C# courses
- Supported students in lab classes to understand and resolve programming tasks

Research Experience

Blood Donation System Design using Blockchain

May 2020 – Dec 2020

Undergraduate Thesis Research Work

Supervisor: Tohedul Islam

Awards and Achievements

Summa Cum Laude

[View Certificate](#) [🔗](#)

from American International University-Bangladesh for academic excellence

Dean's List Honors

Fall 2018–2019 [🔗](#), Spring

from American International University-Bangladesh (two semesters, 4.00 GPA each)

2018–2019 [🔗](#)

Academic Scholarship

from American International University-Bangladesh — 70% tuition fee waiver for exceptional academic performance

Projects

Nomadicare – Connected Healthcare Platform

[nomadiccare.com.au](#) [🔗](#)

- Built a connected healthcare SaaS platform serving clinicians, care teams, and patients across Australia
- **Web Portal (React.js):** care plan management, patient health task tracking, provider directory, HealthEngine appointment booking, telehealth video & chat, Stripe subscription billing, SMS/OTP, Google Drive integration, fall prevention, admin management
- **iOS (Swift) & Android (Kotlin):** health monitoring tasks (blood pressure, blood glucose, BMI, sleep, steps, weight, calories, pain level), gamified progress & badges, telehealth chat via Firebase RTDB, care buddy, referrals, onboarding
- **Backend:** Firebase Cloud Functions (Node.js, australia-southeast1) — 14 API domains: auth, health task completion, Stripe billing, SMS/OTP, video/telehealth, webhooks, Firestore triggers
- **AI Tools:** Claude Code (AI-augmented development), Playwright (web E2E testing), Maestro (automated mobile E2E testing)

CodersTrust JobReady – AI-augmented DevOps

jobready.global 

- AI-augmented DevOps for a workforce development SaaS platform serving 270,000+ learners in Bangladesh
- Led full migration from AWS EKS to Vultr Kubernetes (VKE), reducing cloud costs by 93.5% (~\$37,260/year saved)
- Applied Claude, Codex, and K8sGPT for infrastructure analysis, load testing (250+ VU with k6), performance optimisation, and operational decisions
- **Stack:** Kubernetes, ArgoCD (Flux GitOps), Terraform IaC, Docker, Cloudflare WAF, k6, Prometheus, Grafana, Claude, Codex, K8sGPT; **platforms:** Moodle LMS, WordPress+WooCommerce, Mautic CRM

Pharmacy & Healthcare Platform

epharmaceutical.com.bd 

- Developed an online pharmacy and healthcare ordering platform with product catalog, medicine ordering workflows, and customer management
- **Stack:** Laravel, React.js, Blade, Bootstrap, MySQL; **Payment:** UCB, Nagad, Bkash; **Hosted:** Digital Ocean

ORSFX – Trading CRM & Monitoring Platform

orsfx.com 

- Developed a CRM, TGR, and IB module to manage MetaTrader 5 trading software users, fund distribution, profit reporting, and agent commission workflows
- **Stack:** ASP.NET Core (C#), React.js, Tailwind CSS, MSSQL; **Hosted:** AWS

IFII – Website with CRM & CMS

ifi.ca 

- Developed a website with CRM and CMS for a Canadian client to manage customers and grow business
- **Stack:** NestJS (microservice), Next.js, Bootstrap, MongoDB; **Other:** Docker, Postman; **Hosted:** AWS EC2

Natural Supplements eCommerce Platform

truehealthbooster.com 

- Developed a supplements and wellness product selling platform
- **Stack:** Laravel, React.js, Blade, Bootstrap, MySQL; **Payment:** NMI; **Hosted:** Digital Ocean

Online Learning Platform (Twtor)

twtor.xyz 

- Developed an online tutoring platform where users can create study groups, upload materials, and host online sessions
- **Stack:** Laravel, Next.js, React.js (Admin Panel), Tailwind CSS, MySQL; **Other:** Docker, Zoom SDK, Algolia; **Payment:** Stripe; **Hosted:** Google Cloud Run

US Immigration Form Filing Website

filemyvisa.com 

- Developed a guided US immigration form filing website with step-by-step application flows and admin management
- **Stack:** Node.js, Next.js, React.js (Admin Panel), Bootstrap, MSSQL; **Other:** Docker, Postman; **Payment:** Authorize.net, Square; **Hosted:** Google Cloud Run

Global Technologies – Corporate Website

global-gr.jp 

- Built a responsive corporate website for a Japanese client
- **Stack:** HTML, Tailwind CSS, JavaScript

Fundraising Platform

peakfund.net 

- Built a fundraising platform for organisations to create campaigns and receive donations
- **Stack:** WordPress, MySQL

WCIS School Management Software

2025

- Built a school management system covering accounting, inventory, appraisal, leave management, and student results
- **Stack:** Laravel, React.js, MySQL, Bootstrap

Tender & Inventory Management System

2024

- Built a tender and inventory management system for business operations

- **Stack:** Laravel, React.js, MySQL, Bootstrap

Employee Recognition Platform

2023

- Built a Slack-integrated employee recognition platform and automated attendance system
- **Stack:** Angular, Spring Boot, Tailwind CSS, Docker, Redis, Kafka, PostgreSQL; Slack Bot API

Full Stack Inventory Management System (ASP.NET)

[GitHub](#) 

- **Stack:** ASP.NET Web API 2, Entity Framework (Code First), Generic Repository Pattern, REST API, HATEOAS, jQuery, Ajax, Bootstrap 4, MSSQL

MOOCS

- Python Data Structures from Coursera. [View Certificate](#) 
- Build a Simple App in Android Studio with Java from Coursera. [View Certificate](#) 
- AI for Everyone from Coursera. [View Certificate](#) 

Technical Skills

Programming Languages: JavaScript, TypeScript, PHP, Java, Kotlin, Swift, C#

Frameworks & Libraries: React.js, Next.js, Node.js, Express.js, Laravel, Spring Boot, NestJS, ASP.NET Core, Angular, Redux Toolkit, Tailwind CSS, Bootstrap

Mobile: Swift (iOS – Nomadiccare), Kotlin (Android – Nomadiccare)

Databases: MySQL, MSSQL, PostgreSQL, MongoDB, Firebase / Firestore, Redis

Cloud & DevOps: AWS, Google Cloud Run, Docker, Kubernetes, Terraform, ArgoCD, GitHub Actions, Cloudflare, CI/CD Pipelines

Other: Git, REST API, Stripe, Postman, Figma, Zoom SDK, Algolia

Languages: English, Bangla

AI & Automation Tools

- **Claude Code** — AI-augmented software development (Nomadiccare healthcare platform)
- **OpenAI Codex** — AI-assisted coding and infrastructure decisions (CodersTrust JobReady)
- **K8sGPT** — Kubernetes cluster analysis and AI-driven infrastructure operations
- **Goose** — AI developer agent for local automation and development workflows
- **Minimax, OpenCode** — AI coding assistants for development productivity
- **Cursor** — AI-powered code editor for accelerated development workflows
- **Playwright** — Web E2E test automation (browser testing across Chromium, Firefox, WebKit)
- **Maestro** — Automated mobile E2E test automation (iOS & Android, Nomadiccare)
